

Environmental Policy

10-April-2025
Revision - 2

Circad Design is aware that its activities impact upon the environment and its aim is to reduce such impact wherever possible, by promoting environmental stewardship at all levels of our organisation. We are fully committed to improving environmental performance across all of our activities, and will encourage our suppliers, business partners and members of the wider community to join us in this effort.

Our aims are to:

- Meet or exceed all relevant environmental legislation and codes of practice.
- Promote the responsible and efficient use of energy and water in our buildings and activities.
- Protect and conserve the natural habitats, water courses, flora, and fauna around our site.
- Maintain our buildings in an environmentally-friendly way.
- Reduce the consumption of raw materials and the production of waste in our operational activities; promote recycling of waste.
- Encourage the use of environmentally sound and sustainable resources in our operational activities and source sustainable and ethical products where possible.
- Operate and maintain company vehicles and equipment with due regard to environmental issues as far as reasonably practical.
- Promote and support the development and use of low carbon technologies

View environmental sustainability as good business practice, which supports the financial sustainability of the organisation.

- Take all opportunities to support the protection of our environment.
-

Signed

Gavin Howlett
Chief Executive Officer
